---

PROFESSIONAL SUMMARY

Frontend Developer specializing in React.js and Next.js with hands-on experience building production-ready web applications. Strong focus on responsive design, performance optimization, and clean, maintainable code Experienced in real-world projects and working with modern frontend tools in Agile-like workflows . Seeking a Junior / Mid-level frontend role to grow within a collaborative team

---

WORK EXPERIENCE

Freelance Frontend Developer — Remote

Jan 2025 – Present

- Developed production-ready frontend applications using React.js, Next.js, and TypeScript.
- Worked with component-based architecture and reusable UI patterns.
- Applied performance optimizations such as code splitting, memoization, and optimized data fetching.
- Collaborated with clients to gather requirements, iterate on feedback, and deliver features incrementally.
- Followed Git-based workflows and maintained clean, readable codebases

Frontend Developer Intern – Armed Forces IT Department

Dec 2024 – Feb 2025

- Worked within a team environment on production-level applications.
- Participated in debugging and fixing real-world issues.
- Improved application performance using lazy loading and code splitting.
- Contributed to UI/UX improvements and accessibility enhancements.
- Gained experience with peer code reviews and collaborative development workflows

---

PROJECTS

Sales Dashboard | React.js, Next.js, TypeScript

- Built a bilingual (Arabic / English) dashboard with authentication and role-based access.
- Implemented responsive layout with dark/light mode support.
- Integrated charts and data visualization for analytics use cases.
- Applied performance optimization and clean code principles.

Live Demo :https://dashboard-sales-ashy.vercel.app/en/dashboard

Github: https://github.com/KareemAshraf33925/Dashboard_Sales

Restaurant App | Next.js, Redux Toolkit, Tailwind CSS

- Developed a mobile-first food ordering application.with authentication and role-based access.
- Implemented global state management using Redux Toolkit.
- Built reusable UI components and dynamic routing.

Live Demo : https://resta-foods.vercel.app

Github: https://github.com/KareemAshraf33925/RestaFoods

Healthcare Appointment System | React.js, Next.js

- Created a doctor appointment booking system with scheduling features with authentication and role-based access..
- Focused on responsive design and form validation.
- Structured the project for scalability and maintainability.

SKILLS

Technical Skills

- Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript
- Frameworks & Libraries: React.js, Next.js
- State Management: Redux Toolkit, Context API, Zustand, TanStack Query
- Styling: Tailwind CSS, MUI, Bootstrap, Shadcn/UI
- Testing: React Testing Library (Basics)
- Tools: Git, GitHub, Vite, Clerk, Framer Motion, Figma
- Core Concepts: REST APIs, Responsive Design, Accessibility (WCAG), SEO Basics

Soft Skills

- Problem-Solving
- Communication and Collaboration
- Attention to Detail
- Time Management
- Critical Thinking
- Creativity
- Adaptability
- Teamwork

EDUCATION

Zagazig University

Sep 2017-Jun 2021

Bachelor of Computer Science

Graduation Project – Chemistry Compounds Website – Developed the frontend for a comprehensive website showcasing chemical compounds and their properties, focusing on a user-friendly and informative interface
